ERGOPOWER

USA

ERGOF

Indexed control levers for front and 8-speed rear derailleurs, interfaced with the brake levers.

Maximum safety system for total control of the bike without removing the hands from the handlebar.

Ergonomically designed down to the smallest details, with extremely comfortable lever grip.

Total absence of over shift to obtain fast and precise shifting in every gear position.

Possibility to shift down 8 gears in succession in a single movement or to shift up one or two speeds.

Very reduced weight.

Complete freedom of movement due to the internal passage of the cables, considerably enhancing the appearance as well.
