SYNCHRO 1992

An evenly-spaced freewheel designed for use with all major component sets. Sizes available from 12 to 36 tooth in 5, 6, 7 or 8 speed. For road and off-road use, the new-Synchro 1992 has improved spacing and tooth profile for greater index performance. (*Campagnolo designated freewheel)

Light-weight alloy cogs with the new America body, create a super-light index freewheel unmatched in performance and reliability by any in the world

New America 1992 body features precision ground, bearing races and chrome-plated parts for increased oxidation resistance, and ultimately a smoother performance.

AMERICA 1992

Our premier freewheel. Italian engineering gives the chrome-plated body effortless rotation and long life. Available with 12 to 34 tooth cogs, with a choice of 5, 6, 7 or 8 speed.

Designed primarily for road use, the America comes in an attractive and reusable design for easy, efficient maintenance.
